

Allegations by Type

Report Title: Allegations by Type

Report Purpose: To provide detailed information on substantiated, unsubstantiated, Family Assessment Response, and undetermined allegations for the period of time requested. Undetermined allegations include any CPS Reports that were open as of midnight on the last day of the period covered. An allegation consists of a subject, a child and an allegation type. Thus, any one investigation may have many allegations. For example, an allegation of inadequate guardianship of three children on the part of the mother and father would result in 6 allegations of inadequate guardianship.
