APPENDIX G-3

III. Reasonable Distance, Very Low Income, Child Support, Family Share, Case Closings and Openings and Case Reviews (Required Section)

Reasonable Distance

Your district is required to define reasonable distance based on community standards for determining accessible child care.

The following defines "reasonable distance": **A reasonable distance for Wyoming County residents to travel for the purpose of obtaining child care is 25 miles one way.**

Describe any steps/consultations made to arrive at your definition: **We reviewed the locations of available child care and job sites within the county in relationship to one another.**

Very Low Income

Very Low Income is defined by each district and is used in determining priorities for child care benefits.

Very Low Income is defined as **200%** of the State Income Standard.

Family Share

Family share is the weekly amount paid towards the costs of the child care services by the child's parent or caretaker. In establishing family share, your district must select a percentage from 10 percent to 35 percent to use in calculating the family share. The family share of child care is calculated by applying the family share percentage against the amount of the family's gross income that is in excess of the State Income Standard divided by 52.

Family Share Percentage selected by our district **35%**.

Justification for the above % - Wyoming County has selected 35% family share percentage for child care services. Wyoming County is a small rural county with a small tax base. In recent years we have been very diligent in monitoring child care costs and were able to roll over child care funds annually to help provide the most amount of child care we could. This resulted in no waiting lists and allowed working parents that desired child care services to receive them. Unfortunately this rollover also resulted in our child care funding getting drastically cut. To alleviate funding shortages, to avoid having to place families on waiting lists or to avoid reducing the number of families served we will maintain our 35% family share. The desire is to charge a little more to families, but be able to serve more families.

Case Closings

1. The district must describe below how priority is given to federally mandated priorities and describe local priorities.

Cases will be closed in the following order:

1st – PA recipients and families with incomes up to 200% of the SIS who are satisfactorily participating in a four-year college or university program as long as the parent(s) or caretaker is also working at least 17 ½ hours per week.

2nd – Families with income up to 200% of the SIS when child care services are needed for the child’s caretaker to actively seek employment for a period of 6 months.

3rd - Families with income up to 200% of the SIS when child care services are needed for the child’s caretaker to participate in approved educational or vocational activities as defined in 415.2.

4th – Families with income up to 200% of the SIS when child care services are needed for the child’s caretaker to satisfactorily participate in an undergraduate or community college program with a vocational sequence leading to an associate degree or certificate of completion within a timeframe not to exceed 30 consecutive months.

5th – Families with an open child protective services case when child care is needed to protect the child.

6th – Families with income up to 200% of the SIS when child care services are needed because the child’s caretaker is physically or mentally incapacitated or has family duties away from home.

7th – PA families or families with income up to 200% of the SIS when the caretaker is participating in an approved substance abuse treatment program, homeless, a victim of domestic violence or in an emergency situation of short duration.

8th – PA families participating in an approved activity in addition to their required work activity.

9th – PA families where a sanctioned parent is participating in unsubsidized employment, earning wages at a level equal to or greater than the minimum amount under the law.

10th - Families whose income is 200-175% of the SIS.

11th - Families whose income is 176%-150% SIS.

12th – Families whose income is 149%-125% SIS.

13th – Families whose income is 124%-100% SIS.

14th – Families with children with special needs.

Case Openings

Described below is how our district will select cases to be opened in the event that there are insufficient funds available.

If there are insufficient funds to open all eligible families the cases will be opened in the following order:

1st – Families with children with special needs.

2nd – Families with income 100%-125% of the State Income Standard (SIS).

3rd – Families with income 126%-150% of SIS.

4th – Families with income 151%-175% OF SIS..

5th – Families with income 175%-200% of SIS.

Fraud and Abuse Control Activities

The district must identify below the criteria it will use to determine which child care subsidy applications suggest a higher than acceptable risk for fraudulent or erroneous child care subsidy payment and procedures for referring such applications to the district's front end detection system.

Wyoming County will use the following indicators from our approved FEDS plan:

- **Working off the books.**
- **Application is inconsistent with prior case information.**
- **Prior history of denial, case closing, or overpayment resulting from an investigation.**
- **No absent parent information or information is inconsistent with application.**
- **No documentation to verify identity or documentation of identity is questionable.**
- **Landlord does not verify HH composition or provides information inconsistent with the application.**
- **Self-employed but without adequate business records to support financial assertions.**
- **Documents or information provided are inconsistent with application, such as different name used for signature or invalid SSN.**
- **P.O. Box is used as a mailing address without a reasonable explanation, e.g. high**

crime area.

- **Children under the age of six with no birth certificates available.**
- **Unsure of own address.**
- **A daycare provider living in the same residence as the daycare recipient.**

We utilize our local fraud referral flow chart. When an indicator is identified the process is as follows: Interview with the client, complete appropriate referral, supervisor initial review, referral forwarded to community service worker, referral date entered, referral forwarded to investigator, completed investigation forwarded for Commissioner approval, referral back to community service worker for data entry, forwarded to principle program specialist for review and assignment to worker, worker takes appropriate action and sends copy of original referral, with action taken, to the investigator.

The district must describe below its sampling methodology used to determine which cases it will seek verification of an applicant or recipient's continued need for child care including, as applicable, verification of participation in employment, education or other required activity.

Verification is accomplished at initial and recertification screenings. Recertification screenings are done every 6 months and 100% of the cases are reviewed. These reviews verify the continued need for child care by requiring the recipient to complete the recertification application and submit documentation (i.e. pay stubs, school schedules, etc). They are also required to submit a supplemental sheet on who their current employer is and the number of hours they are working.

The district must describe below its sampling methodology used to determine which child care providers of subsidized child care services they will review for the purpose of comparing the child care providers attendance forms for children receiving subsidized child care services and any child and adult care food program inspection forms to verify that child care was actually provided on the days listed on the attendance forms.

This district will implement a system to determine universe size and then draw an appropriate sample size of subsidized childcare services. This sample number of cases will be reviewed monthly to compare the caregiver's attendance forms with any child and adult food program. Wyoming County has 72 child care providers (family day care, group family day care and legally exempt). Our district will need to annually look at approximately 60 participating providers (a minimum of 5 reviews per month). Our district will then determine the last time CACFP did a home visit for the provider and find out what children were seen during the visit.

The sample number is drawn from a total list of caregivers. When a caregiver is selected that does not participate in child and adult care food programs, that caregiver's attendance forms are not reviewed and another caregiver must be selected until a caregiver that does participate in child and adult care food programs is selected. The district will need to follow up when there is a discrepancy.

APPENDIX G-4

Transportation

Describe below under what circumstances and limitations if any your district will use to reimburse for transportation, what type of transportation will be reimbursed (public vs. private), and how much your district will pay (per mile or trip). Note if paying for transportation, Appendix F will need to reflect this choice.

N/A

Differential Payment Rates

Accredited Programs may receive a differential payment up to zero percent above market rate.

Care during non-traditional hours may be paid up to 15% percent above market rate.

Limitations to the above differentials are as follows: N/A

Payments may not exceed 15 percent above market rate. However, if your district wishes to establish a payment rate that is in excess of 15 percent above the applicable market rate you must describe below why the 15 percent maximum is insufficient to provide access within the district to accredited programs and/or care provided during non-traditional hours.

Enhanced Market Rate For Legally-Exempt Family and In-Home Child Care Providers

If a district elects to establish a payment rate that is in excess of the enhanced market rate for legally- exempt family and in-home child care providers who have annually completed 10 or more hours of training and the training has been verified by the legally-exempt care giver enrollment agency. The district must state the percentage above the market rate it proposes to use.

Our district is requesting to increase the legally-exempt enhanced market rate up to ___percent of the applicable registered family day care market rate. Market rate may not exceed 75 percent (75%) of the child care market rates established for registered family day care.

A district that selects the option to increase the legally-exempt enhanced market rate must select one of the options listed below for implementation of the legally-exempt enhanced market rate:

for all legally-exempt family and in-home child care providers that have been approved by the applicable legally-exempt caregiver enrollment agency; or

for those legally-exempt family and in-home child care providers who were receiving the enhanced rate on the date of the regulations, but only for the remainder of their current one-year enrollment period; or

for those legally-exempt family and in-home child care providers who were receiving the enhanced rate on the date of the regulations, for the remainder of the time they remain enrolled and continue to meet the ten-hour annual training requirement.
