

Report Identification Number: SY-17-054

Prepared by: New York State Office of Children & Family Services

Issue Date: Apr 30, 2018

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Presenting Information

The SCR report alleged that on 12/4/17 around 3AM, the mother put her 5-week-old daughter on a pillow in her bed and laid next to her. The mother then fell asleep. The father, who sleeps in a separate bed, woke the mother up at 5AM and asked where the child was. The child was wrapped in the blankets, unresponsive. The parents called 911 and EMS responded. The child was transported via ambulance to the hospital. The child was pronounced dead at 7:41AM. The child was otherwise healthy. The father and other child had unknown roles at the time.

Executive Summary

This fatality report concerns the death of a 1-month-old old female child (SC) that occurred on 12/4/17. A report was made to the SCR on 12/4/17, with concerns regarding the mother bed sharing with the child, which resulted in the fatality. There was one 7-year-old surviving sibling (SS).

Onondaga County Department of Social Services (OCDSS) coordinated efforts with LE upon receipt of the fatality report. The family had no prior criminal history. An autopsy was performed; however, the ME's report was pending at the time of this writing.

Mother reported taking the child out of her bassinet around 3AM on 12/4/17. Mother placed the child in bed with her and propped her up on a pillow around 4AM. The father came into the room around 6AM and asked mother where the child was. The parents discovered the child had rolled off the pillow and was lying face down. The mother picked her up and found she was unresponsive. The father called 911 and then began CPR. The Fire Department and EMS arrived and continued resuscitation efforts as the child was transported to the hospital by ambulance. The child was pronounced dead at 7:41AM. The child had no preexisting medical conditions and was otherwise healthy.

OCDSS gathered information about the child's death from the mother, father, EMS, LE, and the Fire Department. CW also contacted several collaterals such as the child's physician's office, ME, the mother's cousin, SS's school, and the hospital.

Several home visits were made and collaterals were interviewed. Grief counseling and burial assistance were offered and declined. The family found a counselor of their own and planned to engage in family counseling when they felt they were ready. The family had no CPS history. OCDSS completed required reports and safety assessments accurately and on time and completed a thorough investigation. The case remained open pending the ME's autopsy report.

LDSS Response

On 12/4/17, OCDSS received the fatality report from the SCR. OCDSS initiated their investigation within 24 hours and coordinated efforts with LE. OCDSS contacted the source of the report, completed a CPS history check, and notified the ME and DA of SC's death. There was one 7-year-old surviving sibling living in the home. CW went to the SS' school and assessed he was safe.

On 12/4/17, CW made a home visit and interviewed the mother and father; LE was present and the SS was in school. The mother said she woke up that day around 3AM, took the child out of the bassinet and placed her into her bed. The mother said the father was sleeping downstairs on an air mattress like he usually does when he has to work early in the morning. The mother showed the CW a video of the child from when she was alert at 3AM. The child appeared happy and awake in the video. The mother said she put the child on her queen-sized bed and propped her up with a pillow around 4AM. The mother said she must have nodded off because the next thing she remembered was sometime around 6AM, the father came up and asked her where the baby was and then they found the child face down in the bed. The child had rolled off the pillow. The mother picked her up and she was unresponsive. The father called 911 and they took the child downstairs and performed CPR until the ambulance arrived. The mother denied anyone in the home used drugs or alcohol. The mother's cousin was in the home at the time and denied having any concerns for the parents or children in their care. The cousin provided CW with her contact information. The mother showed CW where the child normally slept which was in a bassinet. The mother said the child was usually placed in the bassinet on her back with no items inside. The mother reported the hospital went over safe sleep guidelines with her and the father when the child was born. The mother showed CW the rest of the home, which had no safety hazards.

OCDSS contacted the Fire Department and EMS workers who responded to the scene. These collaterals confirmed the father was doing CPR on the child when they arrived and did not report observing anything suspicious.

Home visits were made, collaterals were interviewed, burial assistance and grief counseling were offered to the family. A copy of the 911 call was obtained, as well as the mother's prenatal care records, pediatrician's records, hospital records, and school records regarding the SS. Records show the SC was seen by the pediatrician on 11/28/17 for a well child visit and was noted to appear normal and healthy with no concerns. CW made several home visits to assess the safety of the SS and offer services to the family. The family was going to begin family counseling. CW provided the family with books on bereavement for the SS.

The family had no CPS history and no criminal history. LE had not filed any criminal charges against either parent. The ME's autopsy report was pending at the time of this writing and the case remained opened.
